Developer Profile

DAVID HOYLE AND SKIP DIXON

DAVID HOYLE has been involved in the construction industry since partnering with his Father-in-Law nearly forty years ago to form Summey Building Systems in Dallas, North Carolina. Under David's leadership, the company constructed several successful multi-family projects throughout the Carolinas, Texas and other southeastern states.

While growing his family and his construction business, David Hoyle also made time to answer the call of public service. At only 27 years of age, David Hoyle was elected Mayor of Dallas, NC where he served from 1967 through 1971. From 1977 through 1984, David served on the North Carolina Department of Transportation Board. Elected to the North Carolina Senate in 1992, David continues his commitment to serving the constituents of District 43 today.

SKIP DIXON, President of Dixon and Meekins General Contractors has been involved in all aspects of residential and commercial construction since 1979. With a strong presence in North Carolina's Outer Banks, Dixon and Meekins have built a solid reputation for demonstrating integrity, reliability and intense commitment to quality. Skip Dixon prides himself on the fact that in 28 years of business, not once has there been a lien, judgment or complaint of any kind filed with the licensing board.

After retiring from Summey Building Systems in 1985, David Hoyle started his own real estate development company with several business partners including Skip Dixon. Together David Hoyle and Skip Dixon have built a number of single-family homes and condominium projects. In addition to Day Beacon, Dixon & Hoyle have developed Slash Creek on Hatteras Island, South Beach in Salvo and Hatteras Harbor; and A Summer Place II. Currently, the Dixon & Hoyle development team is nearing completion on a mixed-use development, Sunset Bay in Kill Devil Hills.
